

## R Series 4-11 kW Oil-Flooded Rotary Screw Compressors with Integrated Air System

The R-Series 4-11 kW family delivers optimum performance and easier maintenance, all in a robust, innovative package. Improved innovations such as leak-free PTFE hoses with O-ring face seals, a next-generation airend, and a reduced number of components continues our legacy of reliability in a compact design that fits virtually any application environment. And with the optional Total Air System (TAS) included, you'll get clean, dry air in a cost-effective single package.

### Features

- **Increased Efficiency:** Advanced airend design integrates key components to reduce leak paths, improve reliability and improving VSD turndown
- **Leak-free Operation:** V-Shield Technology provides a totally integrated, leak-free design featuring PTFE stainless steel braided oil hoses and O-ring face seals
- **Improved Productivity:** XeiSeries controller includes an intuitive high resolution display with Web-enabled communication and control
- **Compact Footprint:** Vertically-stacked drive components reduce footprint and allow for easy maintenance
- **Enhanced Reliability:** Sequential Cooling System significantly improves reliability and serviceability by providing cool clean ambient air to key electrical components
- **Total Air System (TAS) Included:** Clean, dry air in a single package that minimizes installation costs, space and features improved ISO air quality

Ingersoll Rand (NYSE:IR) advances the quality of life by creating comfortable, sustainable and efficient environments. Our people and our family of brands—including Club Car®, Ingersoll Rand®, Thermo King® and Trane®—work together to enhance the quality and comfort of air in homes and buildings; transport and protect food and perishables; and increase industrial productivity and efficiency. We are a \$14 billion global business committed to a world of sustainable progress and enduring results. For more information, visit [www.ingersollrand.com](http://www.ingersollrand.com).
